Dear [redacted]

Subject: Transfer of Structure
Accountability

STAT

These are copies for Headquarters' files of the documents transferring structures at our operations site to the Army. Note our usual qualifier on Page 4.

Para. 4 of the covering memorandum refers to the fact that USARJ is still scratching around trying to find a specific directive which says the Army is supposed to support our operations. (See [redacted] lognote, Acting Chief Okinawa Bureau 22 May 1974, subject: Future of Bolo Point.)

STAT

I'll have to go to Tokyo sometime in July to brief General Galligan (we're waiting for [redacted] to set up the appointment). So I'll probably go to Zama at that time and see what the problem is--or whether there is any problem.

STAT

In view of [redacted] recent expression of support, which was certainly made in light of the latest reorganization plans, probably we don't have anything to worry about. But we'll see. I certainly don't underestimate the ability of the Army to cause problems and confusion where none need exist.

STAT

Sincerely,

[redacted]
Chief, Okinawa Bureau, FBIS
